

Health and Safety Policy and Statement

Drain 247 Limited recognises its obligations under the Health and Safety at Work Act 1974 and other statutory requirements applicable to the nature of the business.

The company seeks to establish and maintain safe working conditions, equipment fit for purpose and safe systems of work to ensure its employees and sub contractors are able to perform their activities in a safe environment.

The company will ensure that its moral and statutory obligations are met through managing activities and training employees to meet these contractual and statutory obligations.

This statement and policy will be reviewed annually and its content disseminated to all employees. All employees are able to reference this policy when issued at Induction.

The company expects all employees to comply with this policy and report any matters of concern or hazards they may be aware of to their line manager.
